Special Outreach Grant Opportunities

The North American Baptist Conference Eastern Association Executive Committee desires to help our affiliated churches think outside of the box in reaching their communities with the gospel of Jesus Christ. For this test program we are making available ten $3,000 need-based grants. These funds will be made available based on unique programs designed to reach outside of your church's walls. Affiliated churches without the financial ability to do this on their own will be prioritized in receiving grants, but all can make a request.
